Camerise Communities

A vibrant hub where ideas are transformed into action and practices into collective intelligence.

The natural evolution of Camerise Studio into **a hub for collaboration**, modeling, sharing professional practices, and pooling and co-creating open content for professional learning in FSL/FLA.

The 2026-2027 Project

**communautés

Continuum M-12 & Postsecondaire

Innovation

Interinstitutional innovation and training space dedicated to FLS/FLA in Ontario

Collaboration

Promoting exchanges and feedback on practices among teachers

An experimental laboratory and a living observatory connecting classrooms, research, and educational policy.

Transformation

Transforming local practices into collective learning and co-writing open content for professional learning in FSL/FLA.

Innovation and training hub

A hub for designing, testing, and sharing educational resources and practices

Living observatory

Collect and analyze needs to inform departmental planning on needs across the K-12 and postsecondary continuum

Supported ministerial priorities

- Program consistency and accessibility
- Innovation in delivery
- Sustainable professional development
- Evidence-based quality

Collaboration incubator

Foster networking between school boards, universities, and associations

Global Objective

Researchers

Evaluate and document the impact of their work and community engagement with the K-12 sector

Teachers

Share, plan, enrich their practices, and equip them for the needs of the profession over the next five years

Ministry

Continuous flow of indicators to guide FLS/FLA policies

A collaborative and digital ecosystem: educational, technological, and scientific

Six Key Arguments

Living Observatory

Analytical dashboard providing reliable indicators on retention, training, and success

Scientific approach

Action research, collaboration on needs in initial training and professional learning through analysis of data collected with tools that complement current methods
Data-driven model: white paper and ministerial policy note

Experimentation laboratory

Continuous innovation — AI planner
CECR/DELF /CURRICULUM

Collaboration incubator

Provincial clusters connecting universities, associations, and school boards

Open innovation

Free bilingual tools hosted in Canada — fully accessible

Sustainable governance

Let's share to inform ourselves and to equip ourselves.

Welcome to the social platform of Camerise FLS/FLA communities. Our aim is to bring together and build vibrant, supportive communities, dedicated to the informal sharing of experiences, breaking isolation, and fostering strong bonds based on direct mutual aid.
